> **Environmental Management Systems** Manufactured under mill specific EMS

> **Bleaching Process**

Elemental Chlorine Free (ECF)	<input checked="" type="checkbox"/>	Process Chlorine Free (PCF)	<input type="checkbox"/>
Totally Chlorine Free (TCF)	<input type="checkbox"/>		

> **Acid Free** > **Archival**

> **Environmental Credentials Statement** Mohawk Digital Superfine is an environmentally responsible paper manufactured under strict environmental management systems using wind generated electricity and is made carbon neutral within Mohawks' production processes by offsetting thermal manufacturing emissions with Verified Emissions Reduction credits (VERs) and by purchasing enough Renewable Energy Certificates (RECs) to match 100% of the electricity used in their operations. The range uses Elemental Chlorine Free (ECF) fibre sourced from well managed forests.

For more detailed information regarding the carbon neutral status of Superfine click on the following link
