> **Environmental Credentials Statement** Mohawk Via is an environmentally responsible paper range manufactured under strict environmental management systems using wind generated electricity and is made carbon neutral within Mohawks' production processes by offsetting thermal manufacturing emissions with Verified Emissions Reduction credits (VERs) and by purchasing enough Renewable Energy Certificates (RECs) to match 100% of the electricity used in their operations. Via Smooth, Vellum and Felt contain 30% recycled post consumer waste fibre. The entire range uses Elemental Chlorine Free (ECF) fibre sourced from well managed forests. For more detailed information on the carbon neutral status of Mohawk Via click on the following link www.raleighpaper.com.au/paper/?Via&nav=enp
